In re: Bernard Illy, et al. Appl. No.: 09/678,996 Filed: October 4, 2000 Page 2

In the Specification:

3

Please replace the paragraph at page 5, lines 16-21 with the following:

A particular use for the coating is that it subsequently holds together the core 14, and also provides it with a uniform visual appearance, while the product is being stored in a non-congealed state, in particular at <u>a</u> temperature lying in the range 2°C to 8°C (normal temperatures for storing fresh <u>non-frozen</u> milk products).
